Hi Brian,

I wanted to update you with what we have been doing in preparation from the storm. I hope you have already heard all of this from Matthew at the UHRC, but just in case. We have had our teams, both City and County, out surveying all of the major riverways and flood control/wash areas. We have been using the collector app and I will make sure that our GIS specialist shares the shape file by the end of the day with all of the location information. While conducting this survey, we have also been warning folks to move to higher ground (i.e. out of the river areas altogether) due to the threat from the storm. We have been distributing the warning flier that was developed during the last El Nino major rains and offering folks the opportunity to come indoors. We have had three placements that I know of including one transport to a hospital for someone with a broken foot who was in a flood control area. Concurrently, we have had our programs team contacting shelters to determine which if any would be able to accommodate overnight emergency placements from first responders. I will make sure that this information is shared with the UHRC team by the end of the day, including contact information. Additionally, I would remind you that the ED from the Weingart Center stated that they were always willing to take in after-hours placements from LAPD at the first meeting with the Mayor at the UHRC

In terms of a 24/7 contact though, we are not staffed to be a 24/7 operation and so transportation would need to be provided by LAPD or LAFD. Please let me know if there is any additional information needed.

Hi Nathaniel,

I haven't read this yet, beyond the line from Brian asking if Matthew is the appropriate after hours contact. Will read more closely once I get off the phone.

Adding Matthew and Victor to confirm Matthew is the right point of contact for after-hours assistance.

We will reach out to LAHSA for housing related issues.

LAFD will request LAPD through dispatch for LE issues.

Hi Emada,

For someone who would like shelter during the storm, the contact person should be someone from LAHSA. I believe it is Victor. We don't have access to services overnight. Please confirm with LAHSA.

If there is a public safety issue or an emergency that requires PD response, LAFD should contact our dispatch for a patrol unit.

FW: Swiftwater Deployment Matrix for 11/28 pm

I will be the point of contact for other homeless related issues that need immediate attention, conference calls for situational updates, etc. Please clarify with FD that I should not be called to dispatch a unit for service.

Let me know if you have any questions.

Thank you,

Dominic H. Choi, Commander

Hi Commander,

FYI, LAFD will have a Swift Water Rescue team on Stand By tonight and throughout the day tomorrow. Also, LAFD would like to know who should be the 24 Hour Contact should they come across an encampment after hours with someone who would like shelter or housing during the storm. Should that be someone from the UHRC or someone from LAHSA?

Thus far we are good to go with our coordinated efforts for the next few days to include LAPD HOPE, LAHSA and LAFD. I will provide you an update after the Adverse Weather Conference call this morning.

Take Care,

Emada

Subject: Swiftwater Deployment Matrix for 11/28 pm

Commanders,

Attached is the Matrix for the pm of Wednesday 11-28 as well as the Quantitative Precipitation Forecast. The Matrix is right at the go/no go threshold for staffing the Swiftwater apparatus for tonight. The QPF timeline ends at 0400. With the forecast for tomorrow calling for rain most of the day, the numbers will definitely increase. Therefore, it is my suggestion to staff SW44 and SW88 beginning at 2000 hrs. through tomorrow with the possibility of a third (SW86) tomorrow at 0800. I will reevaluate when the evening forecast comes out and send a updated matrix..

As always, reply of call with any questions. I am at FS 78 today.

0.0 0.0 LGT LGT | LGT 0.4 LAC: PEAK 1-HR RATES: CST/VLY 0.11-0.25 FTHLS/MTNS 0.26-0.49
EXPECTED TO OCCUR BETWEEN 2200-0400 CHANCE THUNDERSTORMS: NO && DISCUSSION: LIGHT TO MODERATE RAIN WILL DEVELOP ACROSS SLO COUNTY
LATE THIS MORNING AND COULD SPREAD AS FAR SOUTH AS VENTURA COUNTY BY LATE AFTERNOON AND LA COUNTY BY EVENING. PERIODS OF HEAVIER RAIN
ARE EXPECTED LATER TONIGHT INTO THURSDAY AS A SECOND SYSTEM BRINGS ADDITIONAL MOISTURE AND STRONGER SOUTHERLY FLOW INTO THE AREA. THE
HEAVIEST RAIN WILL BE NEAR SOUTH AND SOUTHWEST FACING MOUNTAIN SLOPES WHERE SOUTHERLY FLOW WILL HELP ENHANCE RAINFALL RATES. PEAK
RAINFALL RATES CLOSE TO A HALF INCH PER HOUR ARE POSSIBLE WEDNESDAY NIGHT AND THURSDAY. WHILE THUNDERSTORMS ARE NOT CURRENTLY IN THE
FORECAST IF THUNDERSTORMS DO DEVELOP HIGHER RAINFALL RATES IN EXCESS OF USGS MUD AND DEBRIS FLOW THRESHOLDS WOULD BE POSSIBLE. RAINFALL
TOTALS EXPECTED TO RANGE FROM 1-2" MOST COAST/VALLEY AREAS AND 1.5- 3" FOR MOST FOOTHILL AND MOUNTAIN AREAS. LOCAL AMOUNTS UP TO 4"
POSSIBLE ACROSS THE COASTAL MOUNTAINS OF NORTHWEST SLO COUNTY. RAIN EXPECTED TO TAPER OFF LATE THURSDAY WITH MOSTLY DRY CONDITIONS
FRIDAY. A FEW HOURS OF RAIN ARE POSSIBLE SATURDAY BUT MODELS ARE NOT IN GOOD AGREEMENT. AMOUNTS AND INTENSITIES WOULD BE MUCH LOWER THAN
WITH THE FIRST SYSTEM. THERE'S ANOTHER CHANCE OF RAIN FOR THE MIDDLE OF NEXT WEEK.
